River Roundup

October 8, 2016 • 9:00am till around 5:00pm

Meet at 1100 North Main Street, Ann Arbor

Join a small team with your friends and family this summer in the River Roundup! Collect a sample of bugs and other creatures that live in our streams. Like canaries in a coal mine, these creatures tell us how healthy the river is.

Pre-registration required:
www.hrwc.org/volunteer/roundup

Volunteers meet in Ann Arbor and then visit two sites with trained volunteer collectors; one may be near your own home! They go in the water, so you won't get wet. You must register early to be assigned to a team. Children are welcome, and each one must attend with their own adult.
