

Stream Nutrient Monitoring Program

YCUA Sample and Equipment Drop-Off Procedure

The laboratory is located at the YCUA Wastewater Treatment Plant. The laboratory's address is 2777 State Road, Ypsilanti, MI 48198. The laboratory's phone number is 734-544-7155. Equipment and samples shall be placed in the Laboratory Maintenance Room. Please notify staff inside laboratory if samples are dropped off during normal laboratory hours (Weekdays 8a-3:30pm, Weekends 8a-1:30pm). If samples are being dropped off or equipment is being picked up after normal hours, please notify the YCUA Main Control Room (734-544-7137) and an operator will accompany you to the Laboratory Maintenance Room. The main entrance gates to the plant are usually closed after 6pm during the week and at all times on the weekends. During these time periods, please contact the Main Control Room at the number listed above or utilize the intercom and identify yourself as a volunteer from the Huron River Watershed Council.

Directions:

- If you are traveling on I-94, take the Rawsonville Road, Exit 187.
- If you are coming from Ann Arbor (I-94E), turn left (North) onto Rawsonville Road. If you are coming from Detroit (I-94W), turn right (North).
- Rawsonville Rd. quickly dead ends, turn left onto William Ave.
- Then turn right onto McGregor Rd.
- Take the 2nd left onto State Road.
- Go through the first gated entrance and take the 2nd right and park in the lot near the 3 garage doors. **Do not leave your vehicle running in this area!** Enter through the door to the right of the 3 garage doors (sign on door states "Authorized Personnel Only"). Then go through the door on your immediate right which will take you into the operations hallway. The laboratory maintenance room is on your right and has a sign on the door titled "Maintenance". The entrance to the laboratory will be the next door on your right.

YCUA Laboratory Technicians: Karen Lauderman, Danielle Palmer, Alisa Malone, & Shaun Holland.
